

MISMO Certified Premiere Level Products

A MISMO Software Certification provides assurance that a technology provider's certified products demonstrate compliance with MISMO standards and best practices. Only products certified by MISMO may utilize the term "certified MISMO compliant" – a symbol of industry excellence.

The following list of products are certified MISMO compliant at the Premiere Level:

1. [eLynx Expedite®](#)

Expedite is a suite of integrated on-demand services that simplify paperless business processes between enterprises and their customers and partners. Expedite has received certification for MISMO Version 3.3 within the Information Exchange business domain.

2. [Closing Insight™](#) technology and [Exchange™](#) services platform from Black Knight Financial Services

Closing Insight, offered by Black Knight's Realec Technologies division, provides the ability for lenders to securely exchange documents, data and other information to collaborate with settlement agents using a workflow-driven approval process to help generate initial and final loan closing disclosures in support of TRID rule requirements. Black Knight's Exchange, which is also offered through its Realec Technologies division, is an open technology platform that provides integration, data, workflow and decisioning support through a 24/7 data exchange that connects more than 17,000 of the mortgage industry's service and solution providers with the top lenders in the industry. Closing Insight and Exchange have received certification for MISMO Version 3.3 within the origination business domain.
