MISMO

Where Innovation Meets Collaboration for a Stronger Mortgage Industry

MISMO is where the mortgage industry comes together to address the most challenging obstacles in real estate finance. Our standards have been shown to increase efficiency, accelerate our industry's digital transformation, and enhance the interoperability of data, systems, and technology platforms across the industry. Every residential loan originated today utilizes MISMO standards in some way, and the importance of this work will only continue to grow.

MISMO's standards lead to lower costs throughout the mortgage process; reduced friction as information is shared effectively among the various parties in the mortgage transaction; faster, more efficient loan closings; enhanced innovation across the industry; improved regulatory and counterparty compliance; and reduced levels of fraud. Become a MISMO member and help to shape the future of the mortgage finance industry!

UPGRADE YOUR BUSINESS EXPERIENCE WITH MISMO

Make Connections

Grow your network and [connect with colleagues](#) across the industry! MISMO's membership includes lenders, servicers, state and federal regulators, GSEs, FHLBs, housing agencies, MIs, title companies, service providers, technology companies, and others, cementing MISMO's status as a unique forum for collaboration across the industry when it comes to initiatives that tackle business, operational, and technological challenges.

Enhance Efficiency and Reduce Costs

MISMO solutions have been shown to lower costs throughout the mortgage process by enabling the efficient exchange of data and information and reducing the risk of costly rework. Learn how your organization could benefit!

Streamline Business

MISMO solutions reduce friction as information is shared efficiently among the various parties in the mortgage transaction, and use of its standards leads to faster, smoother loan closings. The use of MISMO standards enables improved regulator and counterparty compliance and reduces the risk of fraud. MISMO workgroups are developing solutions all the time. What business challenge can MISMO help your organization to solve?

Build Your Team's MISMO Muscle

Make sure your team is "in the know" when it comes to the latest in mortgage industry standards. MISMO offers a range of certifications and educational programs to equip industry professionals with the skills and knowledge they need to implement industry standards. MISMO offers two levels of individual professional certifications: [Associate MISMO Standards Professional \(AMSP™\)](#) and [Certified MISMO Standards Professional \(CMSP®\)](#).

Lend Your Voice to Developing the Latest in Mortgage Technology

MISMO is where cutting edge solutions are developed and vetted on behalf of the mortgage finance industry. Join the conversation and drive more innovative and efficient standards.

Access Key Industry Resources

MISMO regularly enhances and maintains essential industry resources, including;

- [MISMO Business Glossary](#), an enhanced online resource of mortgage industry business terms and data point descriptions enabling easy access to the list of terms associated with iLAD, ULDD, UAD, UCD, and much more;
- [e-Eligibility Exchange](#), powered by Snapdocs, helps you navigate factors like trading partner requirements, county recorders' capabilities, title underwriting guidelines, eNotarization regulations, and settlement agents' readiness so that each closing can be as digital as possible;
- [MISMO SMART Doc® V3 Verifiable Profile](#) specification enabling trusted data;
- MISMO Certification Program, designed to showcase industry Remote Online Notarization (RON), eClosing, and other products certified compliant with MISMO industry standards. The program, recently expanded to include product certification, increases interoperability by enabling counterparties to integrate quickly at lower costs, and simplifies the process for certification candidates;
- Enhanced Logical Data Dictionary (ELDD) that enables business and technology professionals to easily find out which data elements are available within the MISMO Reference Model and shows how each data element fits into the Logical Data Model, XML Schema, and API Toolkit.
